

## Clark Forklift Part

Clark Forklift Part - At this time, there are no less than 350,000 Clark lift trucks performing globally, and upwards of 250,000 operating in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 specific items fabricated for 20 exclusive models of forklifts and automated equipment. Your regional Clark Dealer is your total source for availability of all your components needs offered by Clark Totalift.

Clark has a exceptional Parts Distribution team. The items warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to make certain exceptional service to both their buyers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to offer the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Worldwide, Clark has one of the most outstanding dealer support networks. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their consumers predominates the material handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of refinement in the industrial equipment and automated forklift industry. This exceptional commitment to safety is now a standard feature on every lift truck.

[Clark parts](#) relentless goal to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck maker across the world to be certified with the globally accepted quality standard ISO 9001 for all of their production facilities. Furthermore, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental limitations, thus placing them in a prevailing industry position.

Clark has chosen the structure of "Lean Production" at all of its assembly plants because this method is extremely economical and enables minimal use of resources. Developed to guarantee maximum proficiency, this system is intended to find and acknowledge the most effective methods for manufacturing facility stewardship. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Clark's product engineers and suppliers communicate together to improve the effectiveness and brilliance of their products while minimizing costs. The contemporary value engineering agenda combines modern product improvement and provides superior customer support and service within the industry.
