

TCM Forklift Parts

TCM Forklift Parts - In the global trade of material handling, forklifts play a major role for transporting industrial goods. First innovated as industrial vehicles in the 1930s in the United States of America, lift trucks gained recognition following World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these equipment spread globally.

First established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. previous to becoming known as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's first forklift. Over the years, TCM forklifts have become a worldwide leader in lift truck manufacturing and have built a solid reputation in the industry. TCM began constructing forklift manufacturing locations outside of Japan during the 1980s and is now engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

TCM proudly makes various models of industrial lift trucks with over 50 years of accumulated expertise and technology, making their products recognized and used all over the globe. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and aims to become a world-class leading company.
