

## Meritor Parts

Meritor Parts - Meritor is a leading global dealer which is proudly founded on a one hundred year tradition of service and quality. They focus on a broad range of integrated systems, modules and parts to original machine makers and the aftermarket for the industrial and transportation sectors.

Meritor values the wishes of all their customers to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their worldwide operations. Meritor begins with a culture that values diversity of individuals and their broad thought processes. Operating in 19 nations and employing over eleven thousand two hundred individuals, Meritor encourages innovation and collaboration among a team of knowledgeable professionals.

By just employing future focused staff, Meritor strongly feels these top-caliber individuals will be able to rapidly adapt to changing environments and exhibit the performance and commitment required in order to achieve results in the competitive materials handling market. The business empowers their teams to make sound business decisions to be able to improve the overall success of the business. In return, Meritor provides their employees different opportunities for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This consists of axles, drivelines, suspension and braking systems meant for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is also responsible for supporting the requirements of all their worldwide engineering workers.

Meritor's customer focused and dynamic Quality team is dedicated to ensuring optimum processing at their production plants and aftermarket distribution facilities that are situated all over the world in 19 nations and in 5 different continents.

They have their supplier network which is specially situated to support the development of the business. Each regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making within each and every aspect of the trade. The DFSS or likewise known as Design for Six Sigma ensures product reliability in each and every region. The team is also included transactional Green Belts who use Six Sigma tools to business processes and apply lean methods.
